Case Study: Reduce Shipping & Receiving Time

Latin American Distributors is a major importer and wholesale distributor based in New Jersey. They were in need of a more efficient way to manage their fast-growing inventory. They turned to their trusted AccountMate Reseller - Microtask Consulting Inc - for help.

Microtask Consulting recommended ACCU-DART - a real-time inventory control solution - to improve operations. After implementing the system in the warehouse, Latin American were thrilled with the results!

Learn more about how ACCU-DART helped reduce shipping and receiving time by reading the case study here!

Event Reporter: AccountMate Synergy

The AccountMate Synergy conference was a great success! It was a great opportunity to catch up with our existing resellers and meet many new faces.

At Synergy, we learned all about the features of the newest release as well as all the exciting innovations on the horizon for AccountMate.

Congratulations AccountMate on all your future plans and on a very successful conference!

ACCU-DART Partners with EDISoft

ACCU-DART is proud to offer a new module for Sage 300 users that incorporates EDISoft's Visual ASN solution.

EDISoft Merchant Suite of products is designed to provide 100% accuracy of orders and shipments by eliminating the manual re-keying of ERP sales order data. Edisoft's solutions makes it as easy as a mouse click to receive, process, and ship orders in your client's warehouse or manufacturing floor. EDISoft's Visual ASN is integrated seamlessly through the OE Sales Order and OE Shipment modules in and Sage 300 ERP can be configured based on a customer's existing ERP compliance controls to receive orders and create shipments from Sage 300 ERP.

ACCU-DART integrates directly with both Sage 300 ERP and EDISoft's Visual ASN solution, making it easy to process transactions and prepare shipments all in one. ACCU-DART scans and processes orders as usual, while sending carton information to EDISoft's Visual ASN system, which then completes the shipment:
