

IMPROVE **ACCURACY** **REAL-TIME** INVENTORY CONTROL DIRECT **INTEGRATION** SIMPLIFY **WAREHOUSE** OPERATIONS

GET CONTROL OF YOUR INVENTORY WITH ACCU-DART

ACCU-DART is a real-time inventory control solution, designed to integrate directly with Sage X3 ERP. Using radio-frequency scanners, ACCU-DART allows the warehouse staff to instantly and easily update the ERP system, ensuring that all users throughout the organization have the most up-to-date information.

EFFICIENCY

By updating your inventory transactions in real-time, **you will save countless labor-hours, both in the warehouse and the office.** ACCU-DART is integrated directly with your ERP system - when a transaction is posted, it is **automatically updated in Sage ERP X3.** There are no additional databases to maintain or data to reconcile, making it quick and easy to use.

INVENTORY ACCURACY

ACCU-DART verifies directly with the ERP software that the correct items are being scanned for every transaction. This significantly reduces errors, and ensures that you always know exactly what is happening with your inventory in real time.

By verifying the items scanned, **ACCU-DART prevents the wrong items from being processed in each transaction.** This ensures that you have accurate information at all times, allowing you to make better purchasing decisions, quicker sales, and much more.

ACCU-DART also tracks valuable lot and serial number information.

AFFORDABILITY

ACCU-DART is an affordable inventory control solution. Each feature is priced as an individual module, making it **easy to purchase the exact functionality you need.**

Many warehouse management systems are sold as packages - you pay a flat fee for a group of functions, many of which you may not need for your operations. **ACCU-DART is 100% modular** - start with as little as one RF user and one function - you can add more functions and users "a la carte" as needed.

FUNCTIONALITY

ACCU-DART offers a large collection of modules which provide essential functionality for your business. Our list of available modules is growing all the time, and includes:

- Ship Sales Orders
- Receive Purchase Orders
- Physical Count
- Warehouse Transfers
- Serial & Lot Control
- and much more
