## **SIMPLIFYING THE SHIPMENT PROCESS ACCU-DART & EFI SMARTLINC INTEGRATED SHIPPING SOLUTIONS**

Reduce costs and improve accuracy while processing shipments with Sage 300 ERP Shipping by EFI Smartlinc and ACCU-DART. By integrating Shipping and ACCU-DART, companies can benefit from ACCU-DART's real-time validating and updating shipping information as well as from Shipping's easy-to manage shipping and freight solution.

### **FLEXIBLE AND COMPREHENSIVE SHIPPING**

Shipping provides a flexible solution to help streamline activities for all Parcel Carriers, Less-than-Truckload (LTL) shipments, Truck Load, and Company Vehicles. This state of the art "best in class" web-based system allows you to always ship the best and most economical way – based on the shipments required arrival date, days in transit, and service label.

Shipping helps companies manage shipping throughout the organization, whether you have one location or dozens around the country.

### **ACCURATE AND INSTANT INVENTORY CONTROL**

ACCU-DART is a real-time inventory control solution, designed to integrate directly with Sage 300 ERP and the Sage 300 ERP Shipping solution by EFI Smartlinc. Using radio-frequency scanners, ACCU-DART allows the warehouse staff to instantly and easily update the ERP system, ensuring that all users throughout the organization have the most up-to-date information.

By updating your inventory transactions in real-time, you will save countless labor-hours, both in the warehouse and the office.

### **THE BOTTOM LINE**

With ACCU-DART and Shipping, your organization will save time and money both on the warehouse floor and in selecting the right shipment options for each order. Each order is quickly and accurately completed and shipped, using the best most cost-effective shipping methods.

Ship the right order to the right customer, the first time!
